Detailed Features

Soft-Touch finish elements

Elegant to the eye and pleasant to the touch, the Soft-Touch finish features on various product lines, covering knobs, handles and control panels.

Module height 45

The ovens and coordinated products are available in various heights to adapt perfectly to any installation and configuration need.

Built-in coffee machine

The built-in coffee machine automatically prepares espresso, cappuccino and other hot beverages just like at a café. It allows selection of short, regular or long coffee and adjustment of intensity from mild to strong.

LED lighting

Durable and efficient, LED technology provides perfect illumination while maintaining low energy consumption.

Functions

Main Functions

Adjusting coffee strength

You can choose between 5 levels of coffee strength: extra-light, light, normal, strong and extra-strong flavours.

Pre-ground coffee

Instead of beans, you can make use of pre-ground coffee.

Select type of cup

It is possible to choose between three different levels of the quantity of coffee: short, normal and long.

Select double cups

It is possible to choose to make one or two cups of coffee, in the size you want, at the same time.

Hot water delivery

The delivery of hot water enables you to make different types of drinks such as herbal teas and infusions.

Steam delivery

The delivery of steam enables you to make a cappuccino and to heat up different types of drinks.

Automatic programming

You can set the time to switch on and switch off the device automatically, so that you can wake up with your coffee ready to be delivered.
