- 87.5x43.5 cm cut out
- flush-top: check technical sheet

Burner power:

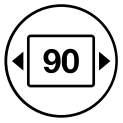

- 1 auxiliary: 1 kW
- 1 semi-rapid: 1.75 kW
- 1 double ring: 3.5 kW

Plus

Detailed Features

Module width 90

Barazza hobs are available in various widths designed to fit the most common standard kitchen unit modules.

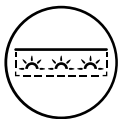

AISI 304 stainless steel

Barazza products are made of high-quality AISI 304 stainless steel, which guarantees resistance to stress, long-lasting durability and ease of cleaning.

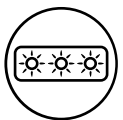

Extra-thick AISI 304 stainless steel

Barazza uses thick AISI 304 stainless steel, which is fully recyclable, corrosion-resistant, durable and highly hygienic.

Integrated burners

Flush pan supports with integrated burners are ideal for creating seamless surfaces that enhance both functionality and aesthetic impact.

Linear burner layout

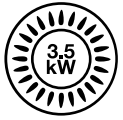

The distinctive linear configuration of the burners optimises space on the hob and allows cookware to slide easily from one zone to another.

Stainless steel knobs

Made of stainless steel, Barazza hob knobs are robust, pleasant to the touch and allow smooth, precise power regulation for burners or induction zones.

Double crown burner 3.5 kW

Two high-efficiency flame rings, with centrally directed flame, optimise the 3.5 kW output for fast, even cooking.

Installations

Installation Method

Flush-top

Ensures perfect alignment with the worktop

Flat edge built-in

The edge is perceptible only to the touch and makes installation easy.
