Detailed Features

Extra-thick AISI 304 stainless steel

Barazza uses thick AISI 304 stainless steel, which is fully recyclable, corrosion-resistant, durable and highly hygienic.

Stainless steel knobs

Made of stainless steel, Barazza hob knobs are robust, pleasant to the touch and allow smooth, precise power regulation for burners or induction zones.

Teppanyaki

Electric stainless steel teppanyaki plate (6 mm thick) with two independently or simultaneously usable zones, ideal for cooking meat, fish and vegetables without added fats.

AISI 316 stainless steel

Elements made of AISI 316 stainless steel, a fully recyclable, durable and highly hygienic material, extremely resistant to weather and salt.

Module width 120

Barazza hobs are available in various widths designed to fit the most common standard kitchen unit modules.

Installations

Installation Method

Thalas edge built-in

Thalas built-in hobs can be installed on any type of worktop, whether in stainless steel or other materials.
